

Habitat for Humanity is always at the right time and in the right place. When the place is absent, they help people getting one. Habitat breaths through the hearts of all the people suffering for poor housing in the past having now their own home. Their stories are not to be found on the front page. Their lives are simple and so is their happiness. Sometimes happiness hides in the simple things. But you recognize life in the simple things only when you lack them. Therefore, Habitat for Humanity does not build houses, but homes. For the people in need and for their brighter, sunnier future stories.

Badescu family

Mihai – 35 years old, labourer in constructions

Elena Violeta - 28 years old, labourer at the furniture factory

Camelia Alexandra – 7 years old

Răzvan Andrei – 2 years old

Badescu family is a young family, full of hopes and dreams, one of the most important one about to come true: having their own home, a place of their own, where they and their children, Camelia and Razvan, can feel safe. This dream will come true thank to their will and work together with Habitat for Humanity Radauti.

Mihai and Elena got married 4 years ago. The happiest time of their lives was when their children were born. Habitat for Humanity helps them to bring life into their dream and start a better life.

Mihai helped at the house of a mate that enjoys now a new home, together with his family, in the Habitat district. Mihai realized this is his chance to have his own home. He worked hard, along with his family, and the “impossible dream” will turn into reality this summer. “We have never believed we will be able to build a house”, says Mihai, sharing his emotions with us, together with his wife, Elena. Till now, they have paid rent for a poor, but expensive two room apartment.

They expect more from their new home, where they will be able to move this summer. More comfort, better conditions to raise their baby and new friends.

“One of the best things is that we take part in building our own home, we see it coming to life behind our eyes”, says Mihai. Elena is thrilled to be a part of the big “Habitat family”, as she said, and they can hardly wait to find friendship in the other homes of the Habitat district.

Habitat changed their destiny. Without Habitat for Humanity, their dreams for a home could not have come true.
